Technology Development and Utilization Programme for Women

DSIR under its "Technology Development and Utilization Programme for Women (TDUPW)" provides assistance for those projects which are relevant to technology development and utilization by women with special emphasis to technologies developed by scientific establishments. In particular, the projects of the following nature are eligible for assistance:

➤ Technology development and dissemination, which can reduce the drudgery, lead to capacity building and economically empower women. Projects will be supported in areas like food processing, health and hygiene, nutrition etc.

➤ Use of technology to promote capacity building and competitiveness of women
